

# Rain Cloud in a Jar

What are clouds made of?

A large, fluffy white cumulus cloud is centered in the frame against a clear, vibrant blue sky. The cloud has a soft, billowy texture with some darker shading on its lower and right sides, suggesting depth and volume. The sky is a uniform, bright blue, providing a high-contrast background for the white cloud.

**Water!**

What are the phases of water?

Ice

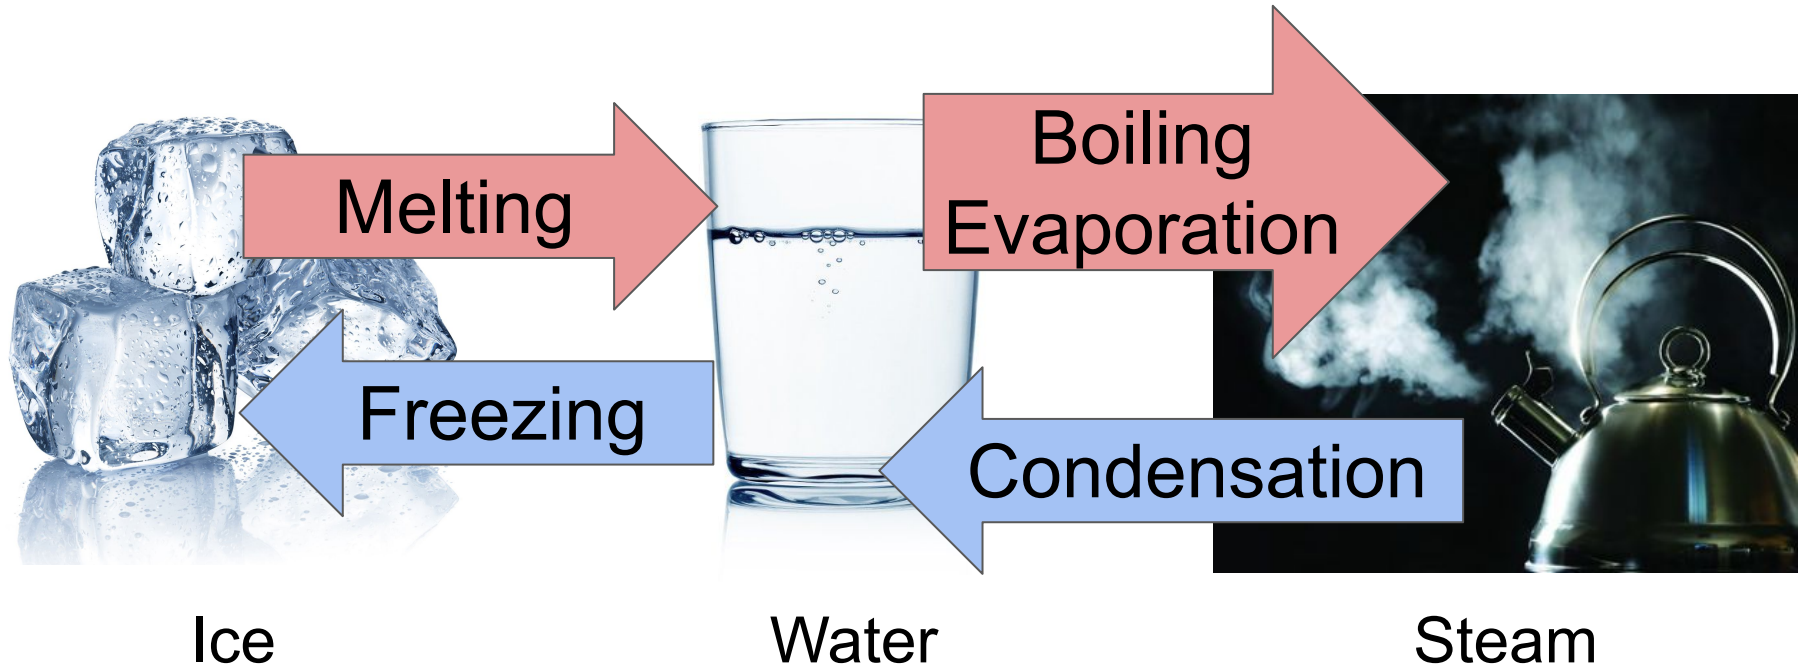

Water

Steam

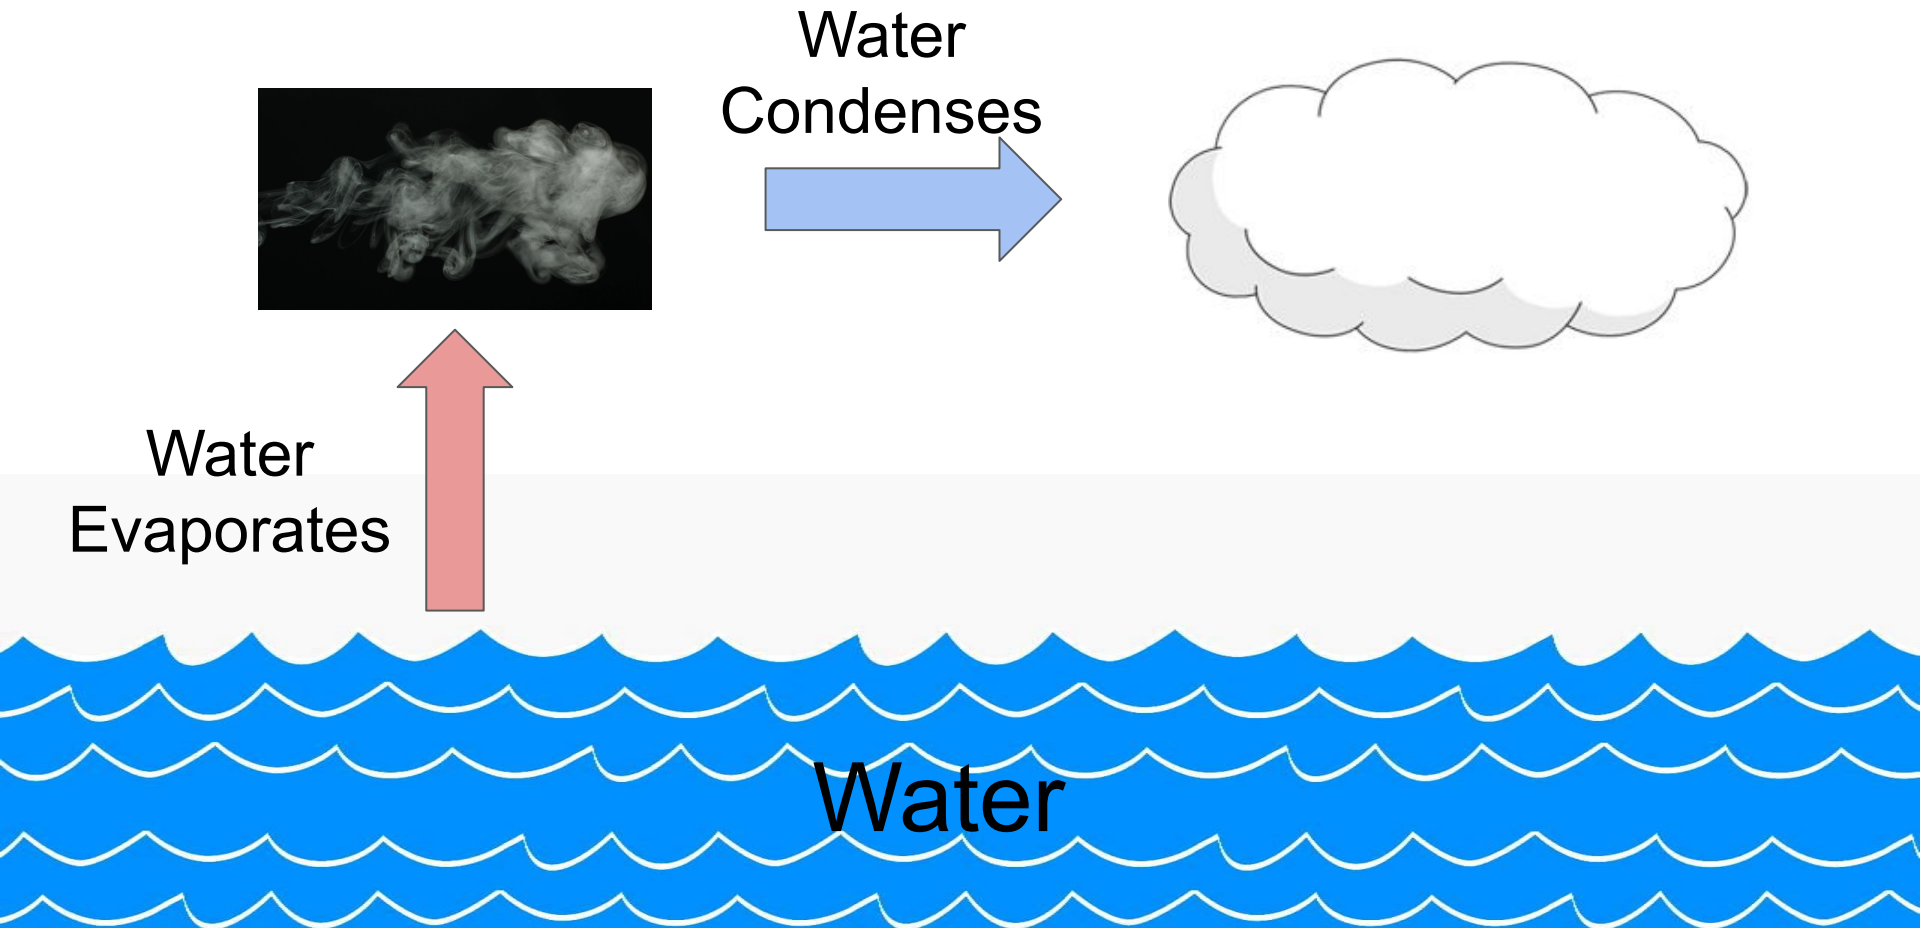

# What are the phases of water?

Where do clouds come from?

# Where do clouds come from?

Water evaporates into a gas, then rises into the sky!
